

# Close out of the First Homestake Laboratory PAC Meeting

---

*Kevin T. Lesko*  
*for the Homestake Collaboration*  
*University of California, Berkeley*  
*11 February, 2006*

# remarks

---

□ Derek Elsworth

□ Dave Snyder

# Where do we go from here?

---

- ❑ Program Advisory Committee is working on their recommendations
- ❑ 1st draft of the recommendation is requested by end of March, results will be made public
- ❑ PAC members may be contacting you
- ❑ All LOIs will be posted, along with the presentations
- ❑ Updated LOIs appreciated, especially those detailing infrastructure needs

# Conceptual Design Report

- This meeting, the workshops (AGU, Physics, and E&O) are essential for the CDR
- LOIs are essential on planning for the lab design
- We will be contacting you for input, assistance and “content”.
- It will be hard to limit the CDR to our restricted 100 pages.
- The Case for Homestake EIP is extremely strong
- The Case for DUSEL is equally strong

# Thank you's

---

- to the 130 attendees
- to the 80+ LOIs (and growing)
- to the PAC members
  - not an easy, but I hope enjoyable task
- to Dave Snyder
- to Trudy Severson

# Acknowledgments

---

- ❑ *Black Hills Power*
- ❑ *Lead Area Chamber of Commerce and Economic Development and the Honorable Tom Nelson, Mayor of Lead*
- ❑ *Deadwood Chamber of Commerce*
- ❑ *Deadwood Economic Development Corporation*
- ❑ *Black Hills Vision*
- ❑ *Barrick*
- ❑ *Honorable Dennis Daugaard*
- ❑ *Honorable Michael Rounds*
